

Ogdensburg International Airport

Welcome Plaza

Ogdensburg International Airport

Great Room

Ogdensburg International Airport

Expanded Lobby

The ticket lobby is expanded to comfortably accommodate typical passenger loads, and is positioned adjacent the Great Room to give travelers even more space and afford the airport with future flexibility. Mobile self check-in kiosks can be positioned in response to space needs. Future expanded service, facial recognition technologies, and concession expansion are all supported by the building design.

Welcome to Ogdensburg *(facing page)*

Arriving passengers are greeted by hardscape and a canopy in front of the glowing, transparent Great Room. The new Great Room is a spectacular front door and gateway to the North Country.
