

# THE NEW YORK HOUSING COMPACT

## New York's Housing Cycle Is Broken.

You and your family deserve more choices for where and how to live. It's time to fix it.

Each village, town and city will have the chance to choose their own destiny.

NYS will provide \$20M in planning and technical assistance and \$250M in infrastructure funding to municipalities to implement the Compact.

We'll all pitch in to address the crisis - by spreading out the growth New York needs, we will all benefit through a strong economy and communities.
